

eTurns TrackStock Replenish

Mobile app for replenishment of stockroom and truck inventory

eTurns TrackStock Replenish is 10x faster than replenishing through an e-commerce site or with a pencil and clipboard because it only requires a barcode scan and a tap to send the order to the distributor. It saves time, reduces errors and costs, and allows you to migrate to other TrackStock offerings that will optimize inventory levels when you are ready.

eTurns TrackStock offers 3 levels of automated replenishment

TRACKSTOCK REPLENISH	TRACKSTOCK MANAGE	TRACKSTOCK OPTIMIZE
 <p><i>Scan barcodes to reorder or count</i></p>	 <p><i>Track usage. Know quantity on hand.</i></p>	 <p><i>Optimize point-of-use inventories using analytics</i></p>
<p>Mobile App (IOS, Android)</p> <p>Includes:</p> <ul style="list-style-type: none"> • Unlimited users, items, suppliers • Simple reporting • Barcode label designer • QuickBooks integration • Certification: SOC II Type 2 • Easily upgrade to TrackStock Manage or Optimize <p>Benefits:</p> <ul style="list-style-type: none"> → 10x faster than e-commerce → Decrease errors, stockouts, overstock → 1 app to reorder from any supplier → Reduce PO costs by up to 90% 	<p>Mobile App</p> <p>Includes everything in Replenish, plus:</p> <ul style="list-style-type: none"> • Track usage, jobs, orders, receives and quantity on hand • Work order signature and image capture • Advanced reporting: customize and schedule 73 reports • Quick Lists, transfers, staging, serial #s, lot #/dates • Alerts Dashboard with analytics <p>All the benefits of Replenish, plus:</p> <ul style="list-style-type: none"> → Real-time visibility of on-hand status → Collect AR faster with job photos → Use consigned inventory → Be proactive with email alerts 	<p>Mobile App, RFID, SensorBins</p> <p>Includes everything in Manage, plus:</p> <ul style="list-style-type: none"> • Min/Max Tuning Dashboard: calculates what each item's Min/Max should be based on recent usage, then quantifies cash savings and reduced carrying costs • Kitting • Requisitions • Project spend limits • Tool crib management • Asset maintenance tracking <p>All the benefits of Manage, plus:</p> <ul style="list-style-type: none"> → Reduce inventory and costs up to 73% → Analytics show potential cash savings

Benefits of TrackStock Replenish

- Automate paper-based ordering or counting with our simple phone-scanning app
- 10x faster than manual ordering/counting or e-commerce sites
- Decrease errors, stockouts and problems with bin stuffing
- Use one app to reorder from all suppliers
- Decrease procurement costs by up to 90% by reducing POs
- Use Min/Max Tuning Dashboard for order guidance

Get reports that drive efficiency

Get customizable reports emailed regularly, such as:

- List of items for approval. Approve/reject button included in the email notification
- Items in stockroom listed by suppliers
- Current orders to suppliers
- Cycle counting by inventory classification, based on inventory turns

eTurns makes orders and counts more efficient

- Orders - Scan a barcode and enter the quantity. Order goes to the supplier's ERP.
- Counts - Scan the item and type in quantity remaining. If quantity on hand is less than the minimum, eTurns will suggest an order up to the maximum. eTurns will calculate and schedule your items that should be counted based on turns. Keeps track of items counted and reports on uncounted items.

Free 30-Day Trial. Very simple setup.

- Fill out our form with: list of items, name and address of stockroom
- We'll set things up and send barcode labels
- Download the app from Apple or Google Play
- Scan to order or count
- Enjoy our free 30-day trial with training and support

How you use TrackStock Replenish

Step 1

Scan to order or count items using a phone's camera. Capture with one scan: customer name, item number, location, package quantity, supplier, etc.

Step 2

Tap "submit" to send orders through eTurns to the distributor's ERP. No web searches or faxing.

Testimonials

eTurns is the leader in automated replenishment for stockrooms and service trucks with more than 1,700 customers in the electrical, electronics, healthcare, telecommunications, construction, HVAC, automotive, education and defense industries. Our customers include: Graybar, Rexel, TTI, Tesla, SpaceX, Cisco, Intel, Rolls Royce, Shell, Northrop Grumman, Henry Schein, Ambulnz, Smilebuilderz, FastMD and others.

"We were using a completely manual process...The value of our inventory on hand was north of \$75,000 when we started using eTurns; now we have around \$20,000 sitting on the shelves. The drain on my time has been significantly reduced and continues to improve."

—Brian Galowitz, Manager,
Lakes Region EMS

"eTurns reduced the average cost on our 75 trucks from \$20K to \$14K, while maintaining the same service levels to our customers. We were also able to reduce our procurement staff from 8 reps to 3, moving them into other strategic roles."

—Carlos Echazabal, Director of
Technical Operations, Service America
